

[Stefanie Krinsky](#)

Stefanie is the mother of two HCA scholars, with more on their way. She is a former teacher with an M.Ed. in Elementary Education, and she taught third grade at a STEM magnet school. As member of the board, she acts not only as a parent, but she also makes use of her past experiences as an educator who understands the implementation of a STEAM curriculum.

Stefanie enrolled her girls at HCA in the summer of 2016, and she has volunteered regularly at school events, in the cafeteria, and in the classrooms (whenever possible with a child or two in tow). She currently serves as a room parent and on the Management Committee as the Chair of the Food Committee. She has worked ardently to maintain a food program that provides freshly cooked, nutritional food to all of our scholars.
